

Meet Carol...

...*Advocate &
Mentor!*

For more than 27 years, Carol Callaway, Kent Center's executive director, has crafted the direction, coddled the expansion of services, labored for adequate funding, and protected the human and civil rights of our community's adults who have developmental disabilities such as mental retardation, autism, and physical disabilities.

Carol's mission is to insure that folks with developmental disabilities have the same opportunities we all enjoy and receive the necessary supports to enable them to live and work as independently and happily as possible.
