

Meet Leon...

...The Miracle Man!

At age three, Leon developed a disorder that rendered him with uncontrollable seizures for many years. Leon's unwavering desire to live a full and happy life necessitated that he undergo three neuro-surgeries, a lifetime of intensive therapies, and receive 24-hour a day supports from friends and family.

Today, Leon's quick wit and twinkling eyes can be found working full-time at Kent Center's thrift store, Hidden Treasures, where he sorts, prices and merchandises gently-used household items and clothing, donated by the community. Leon is pictured with a one-on-one job coach, Louise, who says, "Leon is truly one of the many blessings in my life!"
